# Total sales of the songs with the 20 worst profits

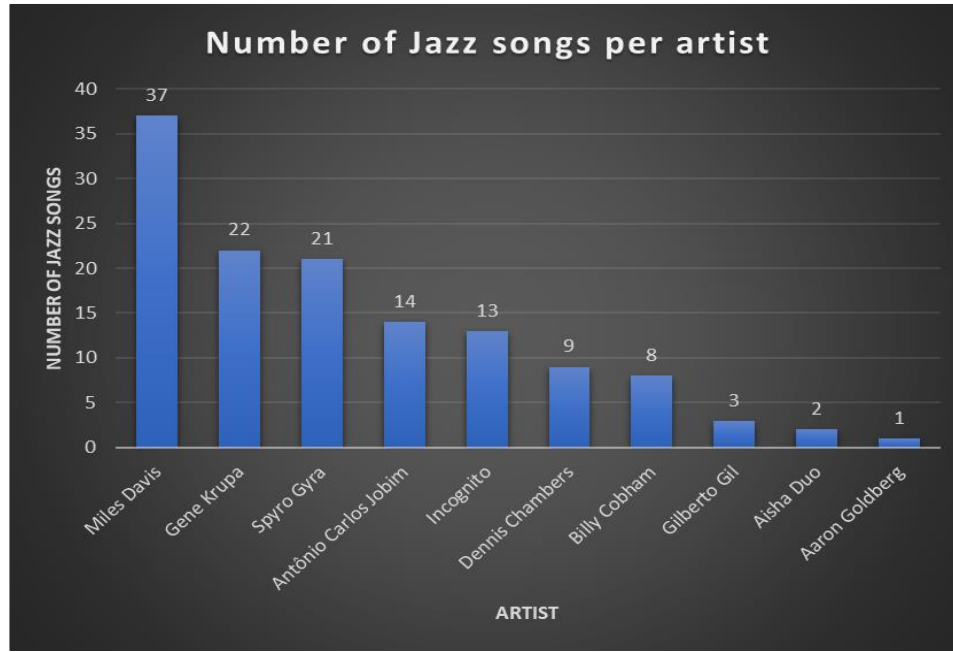

The songs with the 20 worst profits are from seven different genres.

Latin music get the lowest earnings, passed by similar amounts of money from comedy and science fiction genres.

Rock music and TV shows, taking into account that we are analyzing the songs with worst profits, are here the genres that earned the most, with a high difference between the first one (rock) and the last one (latin).

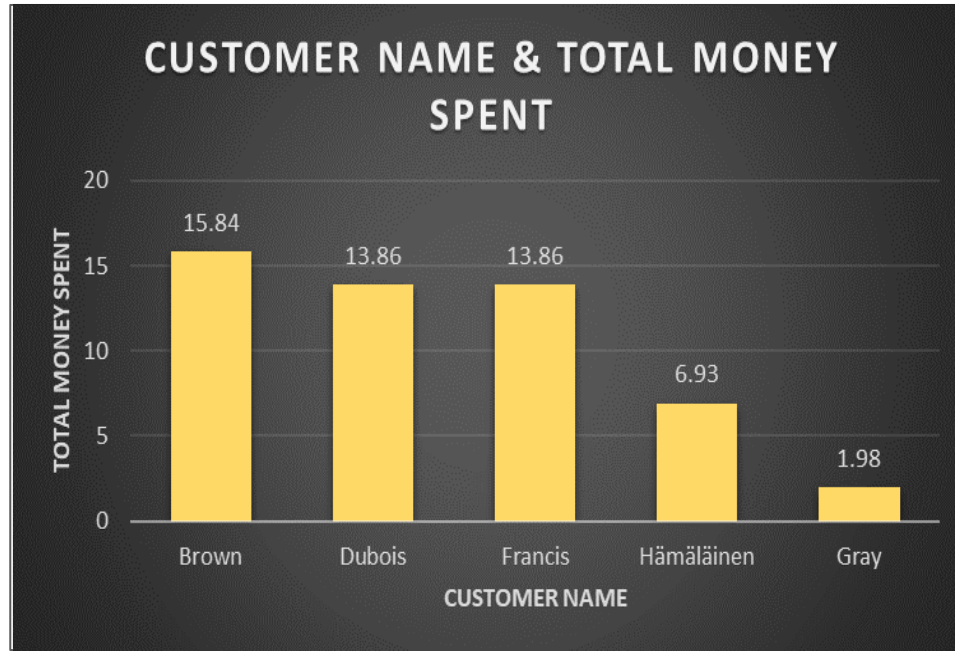

# Top Ten of artists who have written jazz songs

The column chart shows the ten artists who have made the most jazz songs.

Miles Davies wrote the most jazz songs (37), Incognito wrote 13, while the last in this top 10 selection is Aaron Goldberg with only 1 jazz song.

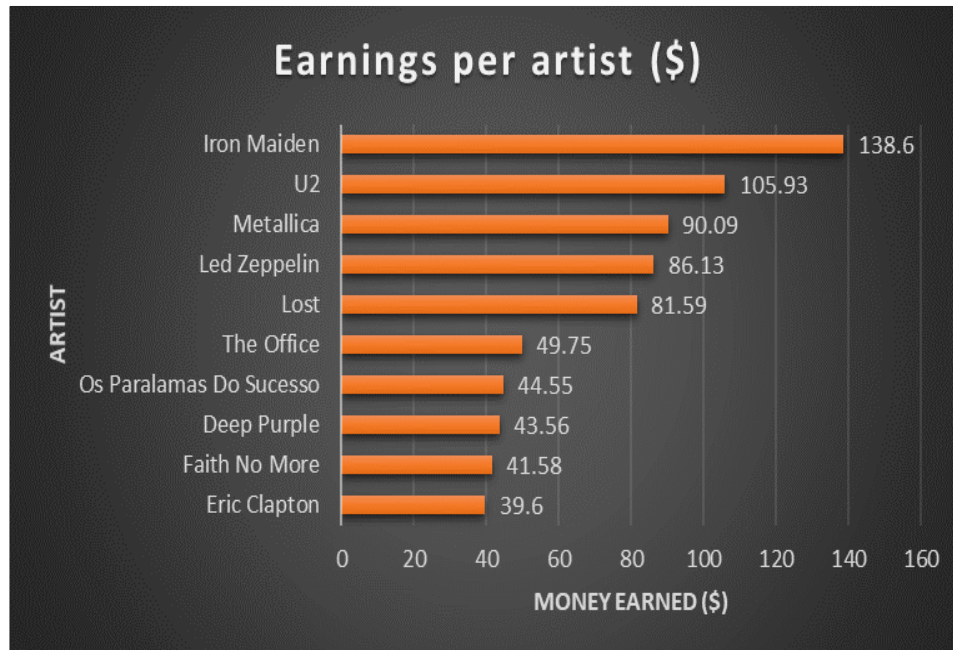

# Top 5 of customers who have bought tracks from Queen and AC/DC and how much they have spent

The column chart shows the top five of customers who bought Queen and AC/DC tracks and how much they spent.

Brown spent \$15.84, being the number one of the selection with the highest expense, while Gray only spent \$1.98, being the one who spent least of the Top 5.

# Which artist has earned the most money? (Top 10)

The bar chart shows the 10 artists who earned the most money.

The first one in the Top 10 is Iron Maiden (\$138.60), followed by U2 (\$105.93). Eric Clapton closes this Top 10 selection with \$39.6, which is quite far from the first one.
